

MLC Case Collaboration

Our Cloud-based chambers management solution can help you reduce costs and increase efficiency. It enables smooth data management, easy work sharing with clients/partners/solicitors, time-saving client collaboration and a better way to identify new opportunities.

MLC now allows you to hold data securely in a centralised and fully encrypted digital environment. This not only allows you to fulfil your regulatory obligations, it can also save time.

Smooth case collaboration

Enabling authorised barristers and clerks to conveniently deposit, or access, data from wherever they are, whenever they need to, enables your chambers to provide an exceptional level of service.

This Solicitor Share facility allows clients to directly upload all case related documents, including individual files, bundles and even images, audio or video, into our secure case collaboration vault.

Case Collaboration enables multiple people to work on a case, using a secure, encrypted method of communication and collaboration. We allow you to prioritise client data security with central administration rights that assign permissions to individuals and ensure you're in control of user access.

Integration with Microsoft Office 365 and Adobe Acrobat allows you to access, create and amend all of your legal documents in any format.

Ditton Park, Riding Court Road, Datchet, SL3 9LL

Advanced Computer Software Group Limited is a company registered in England and Wales under company number 05965280, whose registered office is Ditton Park, Riding Court Road, Datchet, SL3 9LL. A full list of its trading subsidiaries is available at www.oneadvanced.com/legal-privacy.

Compliance simplified

MLC provides you with built-in General Data Protection Regulation facilities and the data retention policies you need to ensure you remain fully compliant.

By providing secure alternatives to traditional communication methods, such as email, MLC helps chambers comply with GDPR regulations and protects client and case information to a very high level.

Effective marketing communications

The intelligent, built-in CRM capability that MLC provides allows you to manage all client data in a way that can enhance your marketing activities. As well as retaining existing clients, MLC provides marketing tools that allow a better understanding of prospective clients, helping you to clearly identify more lucrative opportunities.

MailChimp™ has also been integrated into MLC to provide easy-to-use promotional email templates. These will allow you to execute marketing campaigns in a professional and cost-effective manner and increase your potential to win new business.
